Original Papers

Weddell seal observations on female and pup behavior and breeding status for four overwintering periods (2015 to 2018) at Barton Peninsula, King George Island, Antarctica
Y. KIM, I-Y. AHN, J. K. PARK, W. Y. LEE.............................................................. 1-6

Permafrost table depth in soils of Eastern Antarctica oases, King George and Ardley Islands (South Shetland Islands)
I. ALEKSEEV, E. ABAKUMOV .............................................................................. 7-22

High-resolution multispectral mapping facies on glacier surface in the Arctic using World View-3 data
A. J. LUIS, S. SINGH .......................................................................................... 23-36

The pigment complex and photosynthetic activity in the annual cycle of Polytrichum commune in the forest belt of the Khibiny Mountains on the Kola Peninsula of Russia
N. SHIMAKOVA, O. ERMOLAEVA .................................................................. 37-49

A new record of lichenized fungus species for Antarctica: Peltigera castanea Goward, Goffinet & Mååd.
M. G. HALICI, O. M. OSMANOĞLU, M. KAHRAMAN ................................................ 50-58

Impacts of increased tourism on polar environment – case studies from Svalbard and Iceland
J. KAVAN, V. ANDĚROVÁ ................................................................. 59-68

Microbiomes of the initial soils of mining areas of Yakutsk City (Eastern Siberia, Russia)
A. ZVEREV, A. PETROV, A. KIMEKLIS, A. KICHKO, É. ANDRONOV, A. PETROV,
E. ABAKUMOV ........................................................................ 69-82

The effects of changing environment and human activities on the Arctic: Drivers and challenges in Svalbard (Short Communication)
B. PADRTOVÁ .............................................................................. 83-93

Microfungi, algae and cyanobacteria in soils polluted with fluorine (Kola Peninsula, Russia)
V. V. REDKINA, R. R. SHALYGINA, M. V. KORNEYKOVA ....................................... 94-109

Oceanographic features of the Indian Ocean sector of Coastal Antarctica (Short Communication)
A. J. LUIS .............................................................................................. 110-117

Extended abstracts - Workshop: Biosciences in Polar and Alpine Research, 2019............. 118-146
