

Contents

1.	DETERMINATION OF MOLAR MASS	5
1.a.	Cryoscopic determination of the molar mass of naphthalene	7
1.b.	Determination of dimerization constant of benzoic acid	7
1.d.	The viscosity determination of the average molar mass of a polymer	10
2.	OPTICAL AND ELECTRICAL PROPERTIES OF MOLECULES	12
2.a.	Refraction measurement of methanol-ethanol mixtures	12
2.b.	Permittivity measurement of liquid substances	14
3.	THERMOCHEMICAL MEASUREMENTS	17
3.a.	Determination of the heats of neutralization and dilution	17
3.b.	Determination of the thermodynamic functions of a galvanic cell	19
3.c.	Determination of the temperature dependence of the heat of evaporation from the vapour pressure of the liquid.....	21
4.	PHASE EQUILIBRIA OF SYSTEMS WITH MORE COMPONENTS	24
4.a.	Determination of the partition coefficient in the extraction system	24
4.b.	Determination of the partition coefficient and dimerization constant of organic acid in a benzene-water system	27
4.c.	Phase diagram of a three-component system	30
4.d.	Construction of the ethanol-water phase diagram	32
5.	ADSORPTION ON INTERPHASES	36
5.a.	Determination of adsorption isotherm parameters in methylene blue – water - activated charcoal system	36
5.b.	Adsorption of alcohols at the solution-gas interface.....	38
6.	SOLUTION EQUILIBRIA	41
6.a.	Spectrophotometric determination of the dissociation constant of an acid-base indicator	41
6.b.	Potentiometric determination of the dissociation constant of weak acid.....	43
6.c.	Determination of the degree of dissociation of a strong and weak electrolyte.....	45
7.	CHEMICAL KINETICS	48
7.a.	Measurement of sucrose inversion in an acidic solution	48
7.b.	Photometric study of reaction kinetics	50
7.c.	Saponification of ethyl acetate	52
8.	ELECTRODES	55
8.a.	Verification of Nernst's equation for the Ce^{+3}/Ce^{+4} redox system.....	55
8.b.	Halide and nitrate ion selective electrodes	56
8.c.	Determination of the temperature dependence of oxygen solubility in water.....	58
9.	MATTER TRANSPORT	62
9.a.	Determination of the transference number from the rate of interface motion.....	62

9.b. Determination of the diffusion coefficient of ammonia inside a membrane.....	64
10. CATALYSIS.....	67
10.a. Determination of the rate constant and order of the catalysed decomposition of hydrogen peroxide.....	67
10.b. Observation of chemical oscillations of the Belousov-Zabotinsky catalytic system	71
11. MICRODISPERSIONS.....	73
11.a. Determination of the mass distribution curve of activated charcoal particles.....	73
11.b. Determination of the isoelectric point of casein	75
11.c. Critical micellar concentration.....	76
12. STATISTICAL PROCESSING OF EXPERIMENTAL RESULTS IN SHORT ..	79
Linear and nonlinear regression.....	81
Calculation of the linear dependence parameters and the test of significance	82
Graphical representation of the experimental dependence.....	83
12.a. Statistical evaluation of climate change	84
13. MANDATORY PARTS OF THE LABORATORY REPORT.....	87
14. CAS NUMBERS OF CHEMICAL COMPOUNDS	88
